**DISTRICT 717**  
**TECHNOLOGY ACCEPTABLE USE POLICY FORM**

**FORM I**

Our goal in providing the use of technology (Internet, computers, network and other equipment) to staff and students is to promote educational excellence in the Jordan Public Schools by facilitating research, resource sharing, innovation, and communication. In making decisions regarding student and employee access to the school district computer system and the Internet, including electronic communications, the school district considers its own stated educational mission, goals and objectives. Electronic information research skills are now fundamental to the preparation of citizens and future employees. Access to the school district computer system and to the Internet enables students and employees to explore thousands of libraries, databases, bulletin boards, and other resources while exchanging messages with people around the world. The school district expects that faculty will blend thoughtful use of the school district computer system and the Internet throughout the curriculum and will provide guidance and instruction to students in their use.

Students and employees are expected to use Internet access through the school system to further educational and personal goals consistent with the mission of the school district and school policies. The school district, however, cannot prevent the possibility that some users may access material that is not consistent with the educational mission, goals, and policies of the school district. Outside of school, parents bear responsibility for the same guidance of Internet use as they exercise with information sources such as television, telephones, radio, movies, and other possibly offensive media. Parents are responsible for monitoring their student's use of the school district system and of the Internet if the student is accessing the school district system from home or a remote location.

**Rules for Technology Use:**

Students or employees may be subject to disciplinary action for misuse, including, but not limited to, suspension or cancellation of the use or access to the school district computer system and the Internet; and discipline under other appropriate school district policies, including suspension, expulsion, exclusion, or termination of employment.

**It is understood that the use of the school district system and access to use of the Internet is a privilege, not a right. Depending on the nature and degree of the violation and the number of previous violations, unacceptable use of the school district system or the Internet may result in one or more of the following consequences: suspension or cancellation of use or access privileges; payments for damages and repairs; discipline under other appropriate school district policies, including suspension, expulsion, exclusion or termination of employment; or civil or criminal liability under other applicable laws.**
